

CAREER SPARK ONE* WORKSHOPS

For
Grades 8 -9 | 10 |11-12

ENABLING STUDENTS TO
UNDERSTAND THE
NEW WORLD OF WORK
AND AID IN SELF DISCOVERY

**First 3 phases of our ONETCP Career Decision Model*

As the new career paradigm establishes itself, range of new and emerging technologies impacting all disciplines, economies and industries, career support across an individual's lifetime is an emergent need. Given India's young demographics and challenging job market scenarios, a well planned career decision with better preparedness, knowledge and structure has become essential to increase life satisfaction and prevent early burnouts.

We provide:

- Short and accurate, multilingual online career assessments
- Summary of results at very affordable rates
- Simplified and open Career Path & Cluster Model to aid world of work discovery
- Group Counselling intervention with proven effectiveness

OUR APPROACH

- In the Indian culture the occurrence of career decision making difficulties are considerable in students at all levels therefore the need is for systematically addressing them.
- Research shows a significant cause of these difficulties is due to the lack of information about self and the process and approach for the decision.
- We, at Tucareers, have conceptualized a comprehensive and accurate career intervention based on the world's largest occupational database (O*NET).
- The intervention fully addresses these difficulties and sets the individual on the path of self-discovery and learning.
- A model driven approach (ONE), with effectiveness validated through published research**. We use standardized psychometric scales and provide map of individuals to career paths based on a diverse set of traits.
- Our workshop based intervention (~2 hours) includes an offline/online session and career assessments. One-on-one interactions can be organized on a need basis.

**Research published in a leading international journal of the International Association of Educational and Vocational Guidance.

BENEFITS

- The assessment results can help the individual to understand one's strengths / weakness and fitment across different career paths.
- Identify skills, knowledge gaps and career resources that can be used to address them.
- Recommendations across the world of work to ensure proactive exploration and a non prescriptive approach for guidance.
- Useful for understanding the changing career paradigm of life long learning and career decision making.
- Highly reliable and valid results through extensive tests with school & UG/PG students and working professionals.
